<p>Additional Attendee Comments</p>	<ul style="list-style-type: none"> <li>▪ Law enforcement representatives said it would be very helpful if there was a tool that could be used in crisis situations to identify resources in the Snoqualmie Valley. The group discussed ideas for making this information accessible. Laura Smith said she would watch for funding opportunities that might pay for the development of a cell phone application that would meet this need.</li> <li>▪ Joe Larson shared that some of the Mount Si Key Club is gathering together a list of clubs from throughout the valley. The group agreed that this is also important information to make available in a searchable format. The group wondered if this could be part of the new <a href="http://www.snovalley.org">www.snovalley.org</a> website.</li> <li>▪ Laura proposed continuing the community asset discussion at the next meeting, but the group thought it would be best to first collect the materials that have been collected in recent years about this</li> </ul>	

	(through other organizations such as Si View Parks) and use that as a starting spot.	
Next Coalition Meeting	The group agreed to invite King County Library System to the next meeting to share about the recently completed CONVEY project that invited online conversation about substance abuse and related crime in the valley.
